

BC6

5G Rich-Feature Body Camera

BC6 is a rugged, high-performance recording device designed for security, law enforcement, and industrial applications. Built to withstand harsh environments, it features IP-rated waterproof and dustproof housing, ensuring durability in outdoor and high-risk scenarios. With 5G connectivity, the camera enables real-time streaming and remote access, allowing professionals to monitor and share footage instantly. Its high-definition video recording captures clear, detailed footage, even in low-light conditions, thanks to infrared night vision. To ensure data security, the device incorporates encrypted storage, preventing unauthorized access and tampering.

Designed for extended operation, the camera is equipped with a long-lasting battery, reducing downtime in critical situations. GPS tracking enhances situational awareness by providing precise location data, making it an essential tool for evidence collection and operational monitoring. The tamper-proof security system ensures that recorded footage remains intact and protected, maintaining the integrity of captured data.
